Customer Charter for Household Waste Collection

1. INTRODUCTION

McGrath Industrial Waste Ltd is committed to providing the highest standards in the provision of waste management services to its customers. We have a commitment to providing a service that seeks to incentivize waste prevention and to encourage the segregation of waste so that it can be managed in accordance with the waste hierarchy, whereby waste prevention, preparing for reuse, recycling, and other recovery is preferred over the disposal of waste. This approach is in line with the current national waste policy in the area — National Waste Management Plan for a Circular Economy 2024-2030 and our waste collection permit. This document is designed to communicate how we intend to provide household waste collection services in accordance with these principles to the public in a clear and concise fashion.
